This centrally located, well-maintained garden apartment in Elviria is also conveniently situated within a sought-after luxury best-selling development, one of the most desirable locations in the whole area. Close to shops and all kinds of amenities, golf courses, and walking distance to the beach, this lovely, sunny, bright, private and spacious corner garden apartment has everything you may expect from a perfect holiday home in Spain. Built up to high standards, with marble flooring throughout, central air conditioning, large bedrooms, a large kitchen, bathrooms and lounge, it comes perfectly shaped with a sunny front terrace, surrounded by greenery and you can catch a bit of a sea view when dining “al fresco” in the evening. The long-established community is spread with ancient palms and cork trees, there are several pools to jump in, and one of the largest is very close. Hacienda is an amazing place to live all year long or just some shorter time a year when you can get away – in any case a piece of paradise on Earth is included in the price!
