An exclusive newly built villa designed for a truly exceptional lifestyle, where comfort, sustainability, and elegance blend seamlessly.

This property stands out for its high-end construction quality and carefully selected materials, offering modern, bright, and functional living spaces. It features a solar energy system for hot water, advanced home automation, and efficient solutions that ensure maximum energy savings.

Outside, a beautifully landscaped garden with native, low-maintenance plants creates a private natural oasis, complemented by a designer swimming pool with saltwater treatment, heating system, and thermal cover—perfect for year-round enjoyment. The terraces include misting systems that create a refreshing microclimate during warmer months.

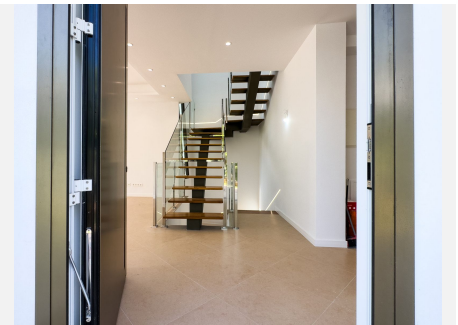

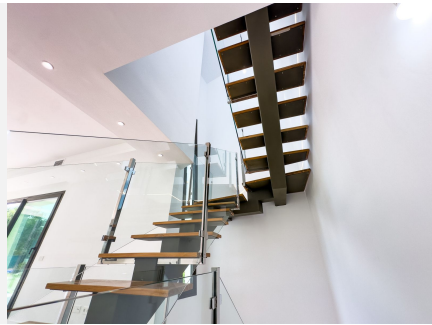

The home is also equipped with automatic irrigation, water recovery systems, a large storage tank, and an electric vehicle charging point, reflecting a strong commitment to sustainability and future living.
