51 m²

Unique luxurious country mansion with a mix of modern and rustic building materials. The whole house is covered with typical local stones which have been recovered from old demolitions and then restored for the construction of this commanding house. Of special mention is the stone fireplace in the main hall and the coat of arms; the outer columns have been imported from India. The main house has a huge living room, 5 bedrooms, 4 bathrooms (3 en-suite), and 2 kitchens (one of them with Swarovski glass features.) The exterior of the house is amazing and full of eye-catching details, both in the quality of the materials and the antiques used. There is a large saltwater, circular style swimming pool with a walk-in section by the porch, big hot tub, stone bridge with a waterfall, barbecue, summer kitchen, wine cellar, walk-in professional cold room, 5,000L water deposit, and a guest apartment.
