TERRACE

40 m²

The new development offers a carefully selected mix of 1, 2 and 3 bedroom homes with generous layouts, large windows and high-quality finishes. Customer requirements were central to the design: that is why the outdoor spaces are larger than average, with terraces of up to 40 m². Twelve homes have an extra wide terrace and six homes have a private swimming pool.

All homes feature luxury kitchens with built-in appliances, sustainable climate control via aerothermal system, and are delivered with a private parking space and storage room. The expected delivery is Q2 2027. In addition to the private outdoor spaces, the project has a communal swimming pool, a fully equipped indoor gym and a modern coworking space, ideal for those who want to combine living and working in a comfortable environment.
