Beautiful, fully renovated apartment with two bedrooms (one is small) and one bathroom. It has marble floors, everything is new in the apartment, and almost everything would stay except for a few personal belongings. It has been tastefully renovated and perfectly finished. It has a communal pool and gardens, as well as ample parking. The complex only has 24 properties. The community fee is 100 euros per month. A good investment for couples or as a vacation rental due to its location.
