An amazing property for sale in Cabopino Port that has been totally renovated to a very high standard from top to bottom. The property has beige marble flooring throughout the apartment two new bathrooms, new stairs, and a new kitchen. This property has two bedrooms and two bathrooms plus an extra room upstairs with two bunk beds that can be used as an emergency third bedroom for extra guests. This property has three terraces and does have sea views from the main terrace. We strongly recommend a visit.
