This is not simply an apartment, but a private sky residence offering scale, architectural clarity, and commanding views rarely found at this level.

With a total constructed area of 406 m², including expansive terraces and solarium, this penthouse delivers a lifestyle comparable to a modern villa, elevated above the Mediterranean.

The layout includes:

– The main level offers 134 m² of beautifully proportioned interior space, where contemporary design meets effortless sophistication

The master suite is positioned for privacy and comfort, while two additional bedrooms create a refined guest environment ideal for family or visitors. Every space has been conceived to maximize light, flow, and uninterrupted views.

The spectacular 149 m² panoramic main terrace wraps around the living space, offering panoramic Mediterranean views and a breathtaking setting for both intimate evenings and sophisticated entertaining. Here, panoramic scenery becomes part of daily life, sunrise reflections over the sea, golden afternoons, and endless horizon lines. The south-facing orientation ensures sunlight throughout the day and unforgettable sunsets over the coastline. The penthouse enjoys an elevated position with uninterrupted views across Málaga, Mijas and Marbella, extending over the Mediterranean toward Africa. The Andalusian mountains frame the horizon, creating a rare balance between coastline and landscape. The perspective is open, expansive and enduring.
