27 m²

This attractive two bedroom apartment is located on the quiet tree lined corner of Cabopino Golf course and yet still walking distance to Cabopino Marina and beach. What we really like about this property is that it has been improved by the current owners with a new modern open plan kitchen, a new bathroom, extra cupboards in the utility room, spot lights, a German heating system in the living area among other things. This property is also in very good condition and has not been used as a rental property. The complex itself is gated, with elevators and underground parking and a useful storeroom included in the price. We strongly recommend a visit.
